

Fully Automatic Cup Filling & Sealing Packaging Machine

This newly designed filling and sealing packaging machine is ideal for solid products. It provides extremely high production efficiency with fully automatic performance. The entire cycle, from cup release, filling, aluminum foil sealing to finished product out feed, is performed automatically, necessary in any mass production line.

Outstanding Features and Construction:

- Mechanical cup filling.
- Employs cup filling design. Filling quantity adjustable.
- Independent temperature control on each mold, with a separate warning light for The heating system.
- The machine is constructed of stainless steel to meet sanitation standards.
- Automatic aluminum foil suction mechanism.
- Out feed conveyor is available to deliver the finished product to the next processing machine.

Specifications :

Model	FM-3504A
Mold	4
Production capacity	50-70 PCS/MIN
Main motor	2 HP, 50/60 HZ
Vacuum motor	1/2 HP
Filling tank	50 Liter
Height of work table	800 mm
Heater tube specifications	220V * 6000W, 220V * 2000W
Working air pressure	7 kg/cm ²
Machine dimensions (L*W*H)	6000 * 1100 * 1600 mm
Packing dimensions (L*W*H)	6150 * 1250 * 1750 mm
Net weight	About 1800 kgs
Gross weight	About 2100 kgs

Automatic aluminum foil suction mechanism.

Employs cup filling design. Filling quantity is adjustable. Can be fitted with 3 filling tanks.

Optional:

- Belt conveyor.

Out feed conveyor is available to deliver the finished product to the next processing machine.

All specifications, design and characteristics shown in this catalogue are subject to change without prior notice.
